## **DETAILED ACTION**

### ***Drawings***

1. The corrected or substitute drawings were received on 6/6/2003. These drawings are acceptable.

### ***Allowable Subject Matter***

2. Claims 8, 9, 18, 19, 27, and 28 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Claims 8 and 9, claim that a fourth segment is present on the filter for carrying a fourth signal either of one of red, green, or blue as is claimed by applicant's claim 8, 18, and 27 or of white as is claimed by applicant's claim 9, 19, and 28. The prior art of record, specifically Nakanishi et al. only teaches using three segments. Only Owen et al. suggests the use of four segments, however Owen as explained in applicant's arguments does not teach that the color components separately output by the filter for one of the pixels are combined and focused onto a location and Owen's does not claim the shape of the lenticules to be of spherical shape.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
